

## ***HACCP? Hygiene? Health and Safety?***

### ***MCI Myrias 3-H software helps you produce a safe product in a safe factory***

When you need reliable records for HACCP, Hygiene or Health & Safety checks, **MCI Myrias 3-H** software provides a secure, PC-based method for checking, auditing and reporting. New and rearranged procedures for equipment, materials, processes, products and people can be put into effect as fast as you can type them, available at every PC on your network in moments.

Audits include space for assessment grades, comments and actions to ensure that your Management can pursue concerns beyond the immediate aims of timely and complete factory-floor checks. And to examine the effectiveness of your procedures, a comprehensive reporting package allows analysis by location, process, product, person, period and other parameters to show you a full picture of activities.

- ◆ Runs under **MCI Myrias** software on standard PCs
- ◆ Security-protected entry of HACCP, Hygiene and Health & Safety checks and procedures
- ◆ Secure, non-editable records suitable for proof of 'due diligence'
- ◆ Operator identity, time and date recorded with all checks
- ◆ Colour-coded checksheets show lates and overdues
- ◆ Records filtered by selected parameters for summaries and exceptions reports
- ◆ Links to other logging and reporting modules for comprehensive recording of plant performance
- ◆ Software suite proved in over 200 installations including food, drink, chemicals and engineering

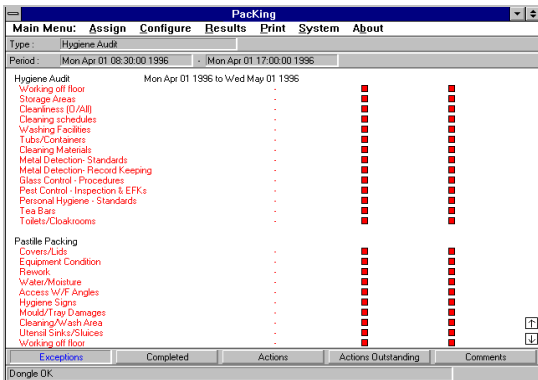

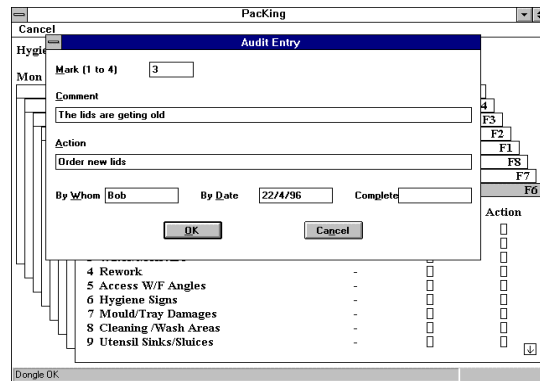

Optional additional **MCI Myrias** software modules include:

- MCI Myrias Materials** tracking
- MCI Myrias Quality** Attribute recording
- MCI Myrias Events/Defects**

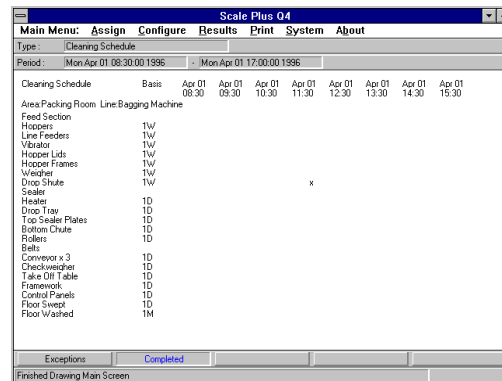

### SCREEN DISPLAYS AND PRINTED REPORTS

- ◆ Checks configured by locations and frequency
- ◆ Operator checksheets colour-coded for urgency
- ◆ No practical limit on the number of checks or audits configured

- ◆ Simple or sequential checks configurable as required
- ◆ Records filtered by selected parameters

- ◆ Quick and easy access to recorded information
- ◆ Records acceptable for Trading Standards, BRC and other legal and regulatory requirements
- ◆ Print-out of screen displays and report tables
- ◆ Bespoke reports as required

**MCI Myrias 3-H** software is just one module in a suite covering many aspects of manufacture. In total, over thirty integrated software modules are available to record, control and report on every aspect of procurement, planning, production and despatch. **MCI Myrias** has a record of reducing manufacturing costs in almost every field of application.
