

Get more from your Weigh Price Labeller!

MCI Myrias WPL software for 100% visibility of pack fills to meet legal requirements and limit profit loss

MCI Myrias WPL software offers 100% real-time charting of every pack that goes over your WPL. Immediate warnings of low weights and expensive give-away are flagged up in full colour. Comprehensive records help you to analyse pack weights and diagnose filling faults.

- ◆ Links to multiple line equipment without loss of system performance
- ◆ Interfaces to the Avery B806, A3000, M3000 and R200 weigh-price-labellers, along with a wide range of other weighing and labelling equipment such as OCS checkweigher, WI130, L336, Loadstar, and Evolution terminals
- ◆ Communications by cable or RF to stand-alone Management PC or network
- ◆ Large product database uploads product settings to WPL on-board memory (some models). Allows configuration of many of the parameters remotely from the WPL such as label information, and can even allow the machine to be run remotely
- ◆ PC screen warnings displayed for individual and collective pack fill infringements
- ◆ Real-time, dynamic screen graphic reports covering all aspects of fill performance, selectable by time and other filters
- ◆ Comprehensive, configurable reports in table format
- ◆ Also links to standard scales, operator terminals, label printers, bar code scanners, PC stations and data networks for off-line checks and QA work
- ◆ Software proved in over 200 installations including food, drink, chemicals and engineering

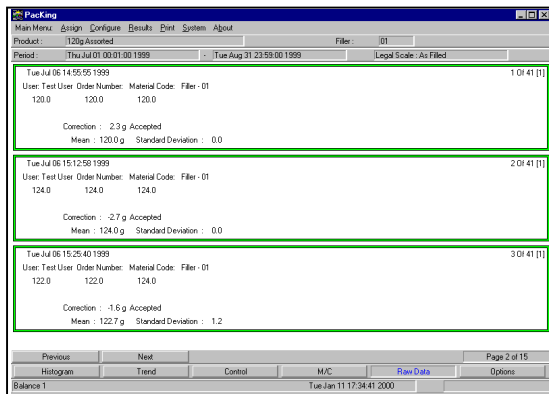

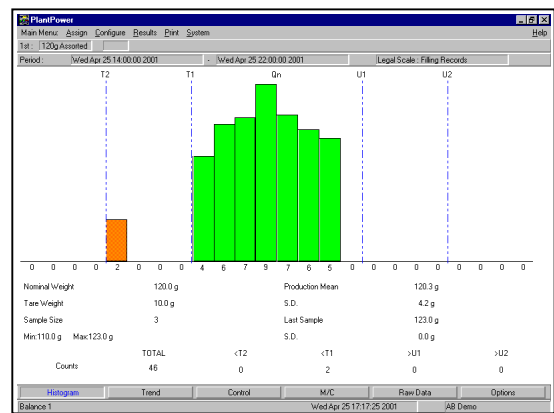

Optional additional **MCI Myrias** software modules include:

- Feedback to automatic filling machines for closed-loop weight control
- Fill head performance analysis for reducing fill variability
- Lot/Batch/other identifiers for full traceability
- Line efficiency and total weight throughput based on actual production rate

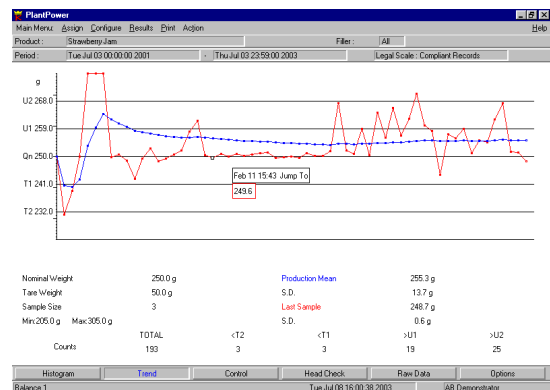

SCREEN DISPLAYS AND PRINTED REPORTS

- ◆ Quick and easy access to recorded information
- ◆ Colour-coded histogram, trend, original data charts
- ◆ Cost of manufacture with variance from standard
- ◆ Separate charts for legal compliance and control

- ◆ Trend plotted with event- or time-base, incorporating zoom facility
- ◆ Original data transactions show full details of each pack weighing
- ◆ User configurable report tables
- ◆ Colour-coded data for easy viewing

- ◆ Records acceptable for Trading Standards, BRC and other legal and regulatory requirements
- ◆ Print-out of screen displays and report tables
- ◆ All records stamped with date and time
- ◆ Bespoke reports as required

MCI Myrias WPL software is just one module in a suite covering many aspects of manufacture. In total, over thirty integrated software modules are available to record, control and report on every aspect of procurement, planning, production and despatch. **MCI Myrias** has a record of reducing manufacturing costs in almost every field of application.
